## The Conservation Pledge

*I pledge to protect and preserve the natural resources of the planet Earth, and promise to promote education so we may become caretakers of our air, water, land, forest, and wildlife.*

Stop Approval for ENLIST Herbicide by DOW  
The EPA is reviewing all public comments right now.

Studies that show that GMO crops do NOT increase yields, and do NOT solve world hunger, all they do is massively increase the use of toxic herbicides. U.S. Representative *Peter DeFazio* (D-OR) and *Chellie Pingree* (D-ME) have written the Environmental Protection Agency (EPA) and the United States Department of Agriculture (USDA) to deny ENLIST Herbicide. Dow wants approval to enlist 2, 4-D and Glyphosate in duo-combination on corn, cotton, and soybean GMO crops. But 2, 4-D is the main ingredient of Agent Orange and contains CHOLINE SALT which is *unregistered* for use as an herbicide to control weeds.

Scientist *Stephanie Seneff* has co-authored a seminal paper linking herbicide use to the multiple chronic conditions and diseases in humans. And according to independent scientific researchers GMOs are correlated with serious problems like pain, suffering, or even death in animals.

Page 2

On the one hand the *Food and Drug Administration* (FDA) defines health fraud as the deceptive advertising, distribution, promotion, or sale of a product represented as being effective to cure, diagnose, lessen, prevent, or treat a condition or illness, or provide another beneficial effect on health, but that has *not* been scientifically proven safe and effective for such purposes. But on the other hand the FDA disregards independent scientific research from around the world that shows GMO food safety claims are unsubstantiated in the long run.

Lots of farmers were fooled into buying GMO seed that sounded great but the claims may really be fakes. GMOs are *not* a miracle cure for world hunger, nor is *Synbio* food “*Natural*”. It takes time to get all the facts about *Produced by Genetic Engineering* scams.

Furthermore, it pressures consumers to buy GMOs when they are unlabelled in the Supermarkets. Grandmothers and others, just suppose it were self-protection for yourself and your family from health fraud to report false GMO advertising to the *Federal Trade Commission* (FTC) at [www.ftc.gov](http://www.ftc.gov) or 1.877.382.4357.

Don’t take the Risk*”; [www.fda.gov/womens](http://www.fda.gov/womens))

### CHINA Won’t Be Bio-Bullied

Corn sales and shipments to CHINA are down 86% in the first six-months of 2014, compared to last year, since *Beijing* rejects *Genetically Modified* strains of corn. The silos are full and the unwanted GMO Corn is piled up all over the Midwest. So the *Department of Energy* wants you to pump up at the gas station with ethanol blend because it will take the factory farmed chickens and cattle forever to have to eat all that corn *Produced by Genetic Engineering*. It’s nuts to keep planting GMOs when Major Markets of the world disapprove.

(Sources: August 18, 2014, THE WALL STREET JOURNAL, “*U.S. Farmers Are Up to Ears in Corn*” by Tony Dreibus, Jesse Newman, and Jacob Bunge; August 4, 2014, THE NEW YORK TIMES, “*Strong Quake Strikes China in Southwest; Hundreds Die*” by Andrew Jacobs)

### Bio-Stepping on INDIA’s Toes

*Dr. Vandana Shiva* defends seed sovereignty for her nation of INDIA because in 1987 she attended a conference on biotechnology, organized by the *Dag Hammarskjold Foundation* at the UNITED NATIONS in *Geneva* and *Bogevé*.

August 26, 2014

Page 3

It alarmed *Dr. Shiva* at that conference in **1987** because the Agrochemical Industry stated their *intention* to introduce GMOs *for the purpose* of patenting seeds so they could collect *royalties* from *every* farmer, in *every* season, in *every* country of the world.

Therefore when CORNELL UNIVERSITY's *Ronald Herring* systematically attacked INDIA's farmers, plant breeders, and scientists by working with USAID and MONSANTO/MAHYCO to try to impose *Genetically Engineered Bt* on INDIA, the **Environment Minister of India, Jairam Ramesh**, organized seven public hearings all across the nation resulting in a moratorium order called "**Rules 1989**" that governs the nation of INDIA.

**Embodied in "Rules 1989" is a biosafety law** designed to protect the biodiversity, the environment, and public health from the negative impacts of *Genetically Modified Organisms* (GMOs) *Produced by Genetic Engineering*.

That means the *Indian Intelligence* agency has to protect the safety and security of INDIA and its citizens from the external threat of CORNELL UNIVERSITY, which has become a hub of the pro-GMO lobby.

It is audacious that the 2014 IB report holds the INDIAN government, INDIAN Parliament, and INDIAN court institutions created by the **Constitution of INDIA** in contempt of foreign commercial interests.

*Dr. Shiva* implicates foreign lobbyists that represent foreign interests are transmitting GMO Industry propaganda messages that are a real threat to INDIA's seed and food sovereignty, the livelihood of Indian farmers, and the health of the citizens of INDIA. She points out that the 2014 IB report is both biased and factually inaccurate.

(Sources: June 18, 2014, "*Generously motivated*" by Dr. Vanana Shiva; <http://www.asianage.com/columnists/generously-motivated-526>; "*Rules 1989 for the manufacture/use/imp-ort/export and storage of hazardous micro-organisms/genetic engineered organisms and cells*")

### Holy Toledo!

The city of *Toledo*, OHIO, came to a standstill when MICROCSTIN TOXINS contaminated the tap water of 11-MILLION PEOPLE due to runoff from *over-fertilized fields and livestock pens* that caused harmful Algae bloom to grow in *Lake Erie*.

*Brett Bevell's* witty little book *America Needs a Buddhist President*, found the sweet spot when he opined that AMERICA needs a vegetarian President to round up all cattle ranchers grazing free on public lands.

(Source: August 4, 2014, THE NEW YORK TIMES, "*Tap water ban continues for Toledo Residents*", by Emma Fitzsimmons)

### The Purpose of Insects

*Great Mother EARTH's Insect Culture* is the World's most populous residents who have lived as part of the GaiaSphere for 400 million years. Entomologists estimate there are at least 30 million insect species, and each species has individual members, adding up to hundreds of billions of insects sharing the planet with flora and fauna, as part of the balance of Nature. The role of harmless and wee tiny Insects is to help perpetuate Life here on EARTH. The purpose of insects is to help The Garden feed all of us.

Man is admonished to consider the *Ant*. *Leafcutter Ants* are some of the best farmers. A few species of *Ants* even tend Aphids just like human shepherds.

I'm wondering if you'll meditate about Monarch butterflies. Monarch caterpillars feed on poisonous Milkweed so that most birds will avoid eating them. If a bird eats an adult Monarch, the bird will get sick. From then on the bird will avoid eating anything orange colored. By being inedible Monarchs can fly 1500 miles, and their children can live to make the return trip home.

Most insects simply evolve ways to incorporate poisons into their own body chemistry as a highly effective way to ward off predation against Insect Society. Ag Tech's poisonous predation against Nature has elicited resistant Superbugs and resistant Superweeds. That's because Nature knows best. Man would not survive for long without pollinators such as *Beetles*, *Fies*, *Honeybees*, and *Wasps* who all sip plant nectar and pollinate. Without Insects, plants would perish. Animals that rely on these plants would perish. People would perish. The result would be *Worldwide Famine*.

Children seem to innately love bugs so people used to call Insects the *Fairy Kingdom*. What child hasn't headed to the backyard in the early morning to peep under old logs or stones at what is harbored beneath them. At night bring a flashlight and look beneath branches, leaves, or rocks. You can find out more about Insects at your local *Library*, *Nature Center*, *Natural History Museum*, or *Zoo*.

(Source: January/February 1999 MOTHERING, "*A Life with Bugs*" by Bryan Reynolds)

### Mosquito and Ticks

Most Insects are harmless but it only takes one Mosquito or one Tick bite to infect you. *Mosquitoes* transmit **Dengue**, **Yellow Fever**, or **West Nile** disease. *Deer Ticks* transmit **Lyme** disease.

*Lone Star* ticks turn you into a vegetarian. Eating a meaty barbecue, burger or a steak could land you in the hospital with severe allergic reactions. Doctors all across AMERICA are seeing a surge of sudden **meat allergies** in longtime carnivores bitten by *Lone Star* ticks. Some other types of *Ticks* also might cause **meat allergies** because cases have been reported in AUSTRALIA, FRANCE, GERMANY, JAPAN, KOREA, SPAIN, and SWEDEN.

*Oil of Lemon Eucalyptus* applied to the skin is a more effective repellent than candles, patches, sonic devices, or wristbands.

(July/August 2014, MOTHER JONES, “*Buzzkill The truth about insect repellent*” by Kiera Butler; August 14, 2014, DAILY TIDINGS, “*A tick can make you allergic to red meat*” by Marilyn Marchione, The Associated Press)

### Something is Fishy

Every intuitive woman knows something *fishy* is going on to allow abduction of farming by BAYER, BASF, DOW, DUPONT, MONSANTO, and SYNGENTA. Woman’s intuition knows that it is exploitation of the *Great Mother* EARTH’s pure genetic seeds to insert bacterial, viral, and fungal carriers of transgenetic genes, because that violates natural species boundaries. If that weren’t violent enough, the Biopharmaceutical crops produce drugs, enzymes, medicinal compounds, or vaccines that are *alien* and *foreign*.

The good news is that these giant chemical conglomerates don’t get to vote. The bad news is that they talk bull in trying to influence voters. ARIZONA, COLORADO, and OREGON all have GMO food labeling on the ballot this November, and CONNECTICUT and VERMONT have already passed GMO food labeling laws that upset the *Synbio* applecart. Labeling GMOs is trending onward and upward.

Did you know that single women now represent 25% of the potential electorate. Single Moms comprise half of the unmarried sisterhood. While playing the shopping game, Moms all across AMERICA are directing some unusual embedded commands to Supermarkets about raw produce and packaged foods that deceptively hide GMO ingredients. The rest of the single sisterhood are spotting new ways to say “*Label GMOs*” to grocery store managers. Divorced mothers, older widows, and independent business women are really enjoying taking this issue up a notch.

And married women all across AMERICA are imagining a time when wives have the resources you want to feel so WOMAN POWER stops pledging allegiance to MONSANTO as “*One God*”. In today’s reality Eve demands the *liberty of knowing* whether the apple is *Synbio* before she puts it into her grocery cart, because being “*had*” is the opposite of “*Liberty and Justice for all*”. Having eyes wide open all the time can mean you are going to understand this from a viewpoint where voting **Yes on Measure 92** all makes sense this November for Oregonians statewide to stand tall.

(Sources: July 22, 2014, DAILY TRIBUNE, Commentary “*Will the Blabbermouths Wake Democrats Up?*” by Froma Hariop; [www.POPCampaign.org](http://www.POPCampaign.org); [www.MOMS4POP.org](http://www.MOMS4POP.org); [www.Oregonrighttoknow.org](http://www.Oregonrighttoknow.org); THE FDA’s Office of Women’s Health and Office of Enforcement, “*Health Scams! Don’t take the Risk*”)

You will know when darkness is over

Changing a belief that limits you can have a profound effect on your life and on the Planet. The *New Consciousness* is already being *sung* in. You might have heard about the new documentary called SONG OF THE NEW WORLD.

Act Locally--All You Need is Love

Grandmothers and others, you know you have a hammer, a bell, and a song to sing about love between your brother and your sister, and now there's the flash drive *all over this world*. Put your pedal to the metal and get on out there to do whatever it takes to have fun while you are creating the way you want it. Ultimately this is about coming home to the *True Nature* of the Universe which is love, light, peace, and healing energy. Will you close your eyes and remember joy is YOUR *True Nature* now, or will you keep your eyes open a little longer.

The *Eco-Community Dialogues* newsletters are a FREE community service, available by request, at the *A Street Print & Copy* shop across from *ACE* hardware, in *Ashland*, OREGON. The print shop only charges for paper and ink, or will download the entire PDF file of current and back issues onto people's flash drives to read off their computers and save paper and ink. It's up to you to provide your own flash drive.
